

SETTING UP YOUR Bandanna SHADE

1 Remove shade from carry bag

2 Locate red disk handle

3 Grab red disk handle and lift up

4 Stand behind your shade for the remaining few steps...

Locate leg poles with red stickers, move them away from each other to make floor flat.

5 Open shade by rotating red handgrip clockwise

6 Advance red handgrip catch around right-side pole to lock in place

7 Still a little confused?

No worries—watch our set up video at www.bandannashade.com

A USING YOUR WIND KIT

Remove kit from bag... and pick desired anchor type for your environment.

3 sandbag anchors with integrated tension ropes. 3 stake anchors 3 auger anchors

B Locate anchor locations next to floor

C Advance tip of anchor into ground then screw until secure

D Screw third anchor into ground just behind floor

E Locate red loops on sides of shade top and attach hooks. Repeat for red loop on center back of shade.

F Anchors

sand anchor: Fill bag with sand and see step "E"

auger or stake anchor: Catch rope loop on anchor then slide tensioner up to remove slack in each rope.

G Your new Bandanna shade is now tethered to the ground and ready to use!

WARNING:

Do not use your Bandanna shade in excessive wind conditions.
